8110, 8109	111	7	5	15-18	18-22	22-25	25-28	28-31	31-33	33-35

CHARACTERISTIC DEFINITIONS

Low Population and High Population Ratings are based on a 1-9 scale with 9 being the best. Definitions are as follows:

Low Population Response – (Ear Flex) A hybrid’s ability to outyield other hybrids at low populations.

High Population Response – Likelihood of a yield benefit at aggressive planting populations. Also takes into account standability at high populations.

NR = Not Recommended for that yield environment.
