

Soybean program approach

**Start clean with
tillage or burndown**

HERBICIDE

Enlist Duo®

COLEX®-D technology

Enlist One®

COLEX®-D technology

(No plantback restriction
for Enlist E3® soybeans)

Elevore®

Arylex™ active

(See label for
plantback restriction)

**Plant Enlist E3®
soybeans**

Apply soil residual herbicide*

HERBICIDE

Afforia®

Enlite®

Envive®

Sonic®

Surveil®

Trivence®

EverpreX®

(Also layered
residual use)

Apply Enlist® herbicides
Apply through R1 growth stage

HERBICIDE

Enlist Duo®

COLEX®-D technology

Enlist One®

COLEX®-D technology

Apply glyphosate
Apply no later than R2 growth stage

Apply Liberty® herbicide
Apply up to R1 growth stage

Liberty®

Herbicide

*Visit EnlistTankMix.com for a full list of qualified tank mix patterns with Enlist One® or Enlist Duo® herbicides. Always reference product labels for application cut-off timing.

■ Tillage or burndown ■ Planting ■ Preemergence ■ Postemergence/tank-mix
